DATA ANALYST PORTFOLIO SHOWCASE

# AdventureWorks Sales Insights & Analytics

An end-to-end interactive Power BI dashboard analyzing revenue, profit distribution, customer metrics, and product performance.

Power BI Desktop | DAX Modeling | ETL & Power Query

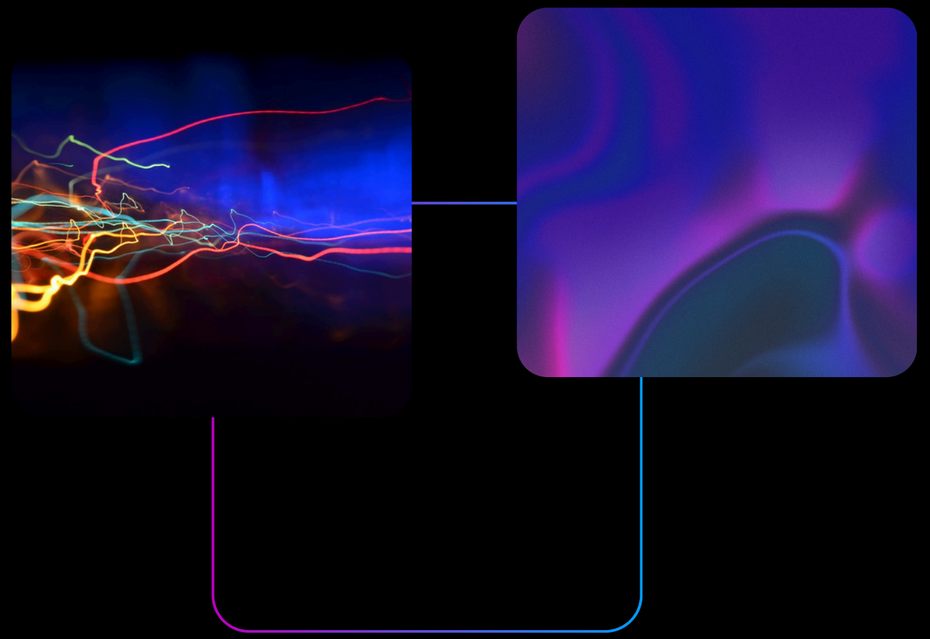

# Project Scope & Tech Stack

**Project Overview:** Designed an executive sales dashboard for AdventureWorks to deliver clear insights into revenue drivers, product profitability, and customer acquisition efficiency.

**Key Analytical Focus:**

- Evaluation of 1.42 Jt in Total Sales Revenue across 200 Orders.
- Margin analysis identifying high-profit vs high-volume SKUs.
- Time-series tracking of monthly sales trajectorie

Tools Implemented: Power BI Desktop, DAX Measure Formulas, Data Modeling (Star Schema), Power Query ETL, Custom Visualizations.

# Key Business Metrics

TOTAL REVENUE

Rp 1,418,525.51 Total Sales

TOTAL PROFIT

**595.02 Rb**

Rp 595,024.26 Net Profit

PROFIT MARGIN

**41.95%**

Healthy Business Margin

TOTAL ORDERS

**200**

Completed Transactions

TOTAL CUSTOMERS

**49**

Active Buyers

AVG REVENUE / ORDER

**7.09 Rb**

High Order Value

# Revenue & Profit Drivers

## High-Margin Champions

Products such as **WindCutter S** and **Alpine Cruiser** yield top-tier total profit, driving the company's overall 41.95% profit margin.

Scatter plot analysis confirms a strong linear correlation between total revenue and unit profitability, making premium bikes the key growth engine.

## Volume & Retention Drivers

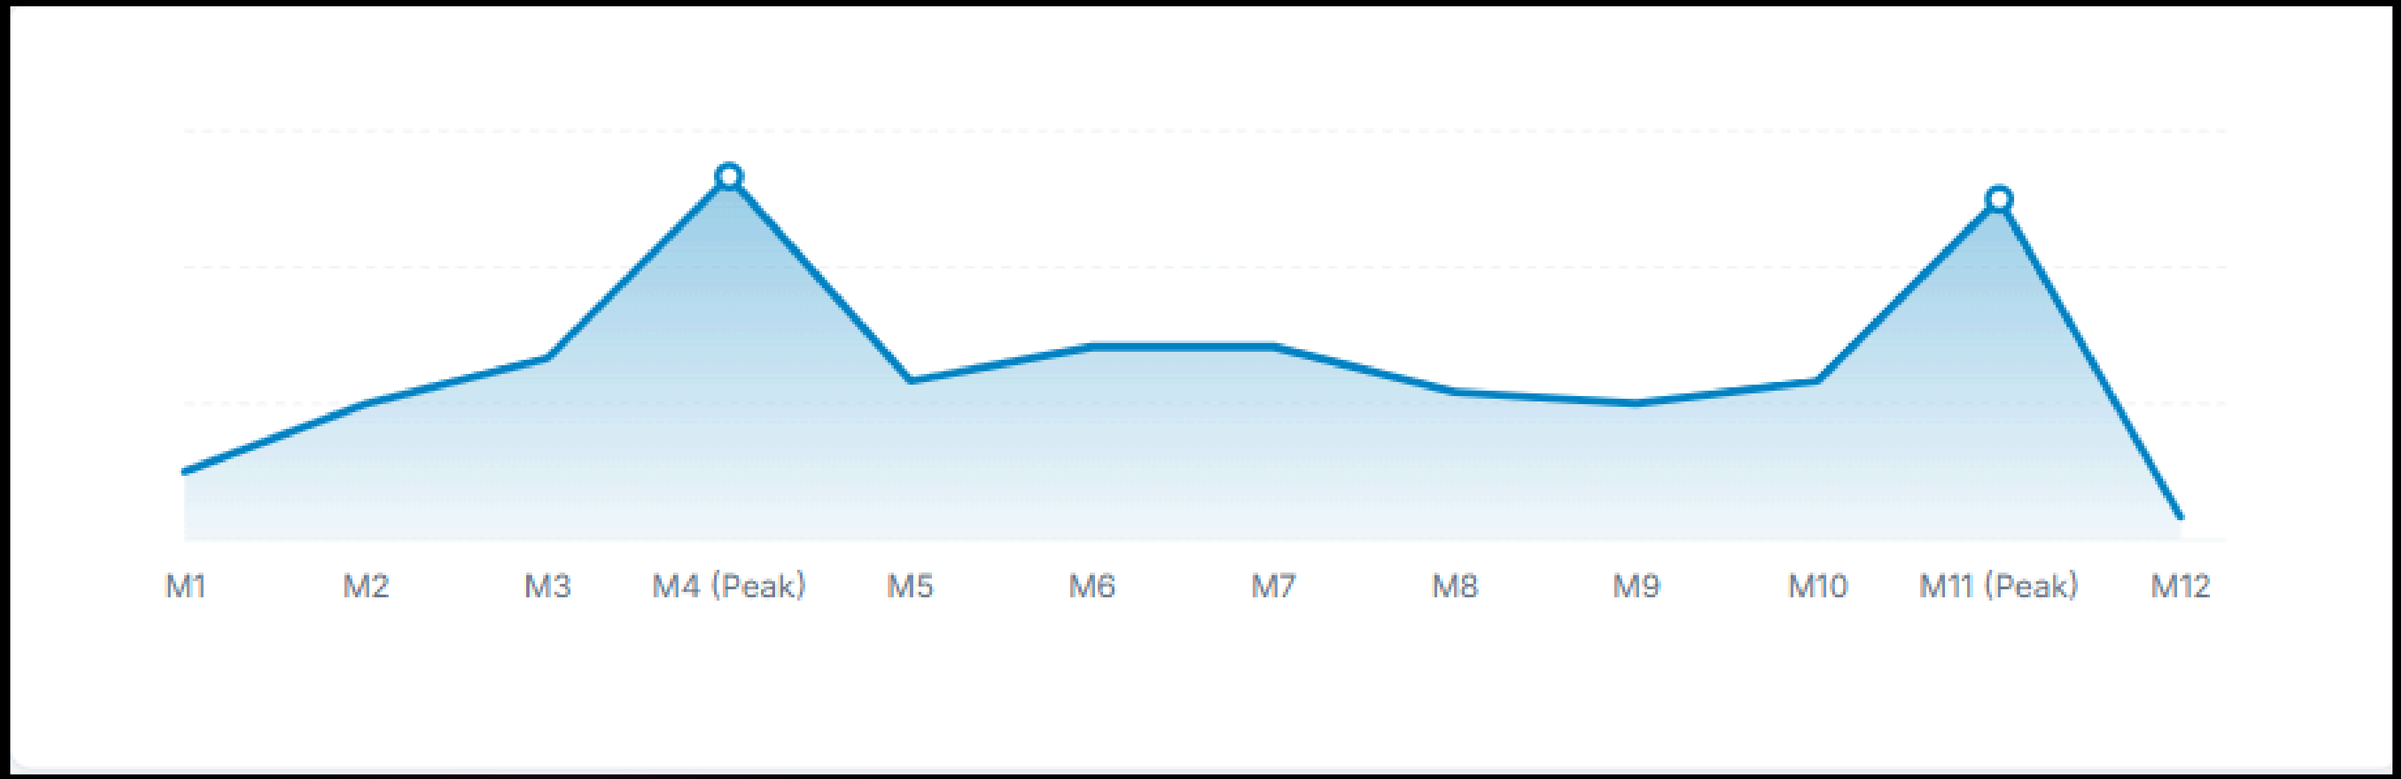

**Summit Pro 500** leads total quantity sold (>100 units), acting as the primary entry product for customer acquisition.

Accessories like *HydroFlask 750ml* and *GripCage Pro* provide steady volume and recurring order touchpoints across 49 unique customers.

# Product Performance Detail

| Product Name | Total Revenue | Total Profit | Total Customers | Profitability Category |
|---|---|---|---|---|
| Aero Racer | Rp 95,303.47 | Rp 41,801.76 | 8 | High Margin |
| Alpine Cruiser | Rp 83,888.20 | Rp 39,187.61 | 10 | Core Driver |
| Breathe Jersey | Rp 70,343.60 | Rp 33,336.16 | 10 | Steady Volume |
| AeroShield X | Rp 61,303.54 | Rp 21,827.31 | 7 | Growing |
| **Overall Portfolio Total** | **Rp 1,418,525.51** | **Rp 595,024.26** | **49** | **41.95% Margin** |

# Monthly Revenue Trajectory

Analysis: Revenue displays major seasonal surges around Month 4 (Q2 peak) and Month 11 (Q4 holiday ramp-up), followed by sharp M12 contraction. Stocking strategies must align with these dual peaks.

# Data-Driven Recommendations

### Focus Premium SKUs

Prioritize marketing and inventory allocation for top profit products like **WindCutter S** and **Alpine Cruiser** to protect the strong 41.95% profit margin.

### Cross-Sell Bundling

Leverage high-volume entry items like **Summit Pro 500** by bundling them with high-margin accessories (HydroFlask, GripCage) to increase overall average cart size.

### Seasonal Inventory

Prepare supply chain lead times ahead of Month 4 and Month 11 surges to prevent stockouts during peak historical demand cycles.
